# NOTICE

## *Of Pricing Adjustment*

### DEAR VALUED CUSTOMERS

Please take note of an upcoming change to our manicure pricing structure, effective **15th November 2024**. Prices for manicure services with UNLIMITED DESIGNS will now be determined based on the therapist's rank and skill level, which are categorized as follows:

INTERMEDIATE

ADVANCED

MASTER

This updated pricing system will better differentiate the skills, techniques, and capabilities of all our therapists. As each rank reflects a different level of expertise, the pricing will more accurately correspond to the quality and precision of the service provided.

Customers will now have the option to choose services that align with their preferences and the therapist's qualifications, ensuring that each experience is tailored to their needs and expectations.

Please find our updated menu reflecting these changes. We believe this adjustment allows us to continue delivering exceptional service while recognizing the diverse talents and varying levels of our therapists.

Please note that there will also be minor adjustments to the pricing of other services listed on our menu. We encourage you to review the updated menu for the full details of these changes.

We appreciate your understanding and continued support. Should you have any questions or require further clarification, please do not hesitate to contact us.

Sincerely,  
Fiftyfreed Beauty Bar

## BROW LAMINATION + TINT

Brow lamination is essentially a natural brow hair lift. This semi permanent treatment restructures your brow hair to give you full, slicked up brows while smoothing them on top of unveiling that brow arch that you never knew you had!

In brow lamination, your brow hairs are brushed upwards and fixed so that they stay in the direction they're put. It's the treatment for anyone with fluffy stubborn brows, but also for those with thin or sparse brows. Lastly, brow tint will be applied that'll make your brows look HD-fined.

### FREQUENTLY ASKED QUESTIONS

#### **Is there a downtime after brow lamination?**

Do not wet your brows 24 hours post lamination or partake in activities that cause excessive sweating. Do not apply makeup to the brows.

#### **Does it hurt?**

There is no discomfort during or after the process at all.

#### **Does it damage my brow hair?**

Brow lamination does not cause any long term damage to the brow hair. We use products that are gentle on the hair and skin.

#### **How long does it last?**

It can last up to 4-8 weeks if proper care is taken during the 24 hours post lamination.

### WHAT IS SHR OR SUPER HAIR REMOVAL?

SHR uses low fluence repetitive laser pulses while providing concurrent contact cooling. The combination of the two makes the entire experience painless and provides efficient permanent hair removal.

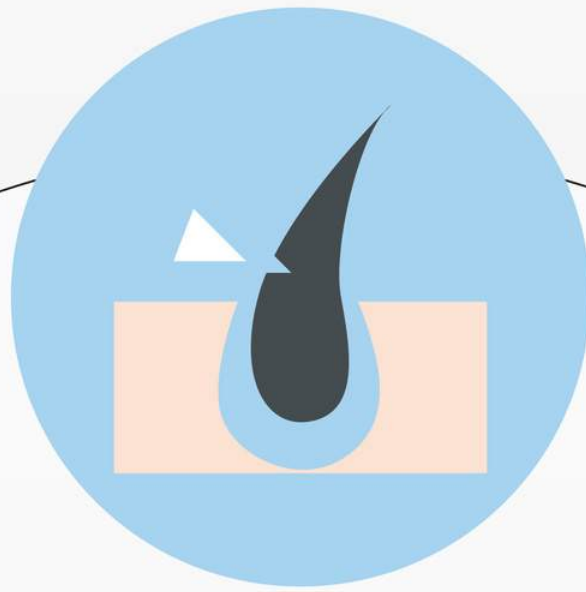

SHR uses gentler pulses of energy at a higher frequency. It is also able to target all hair types, from fine to coarse hair.

Because of the gradual accumulation of the energy into the skin, there is less trauma and irritation on the skin - making it ideal and suitable for everyone, regardless of skin tone and even for customers with sensitive skin.

**\* All Prices Are Inclusive Of GST**

## SUPER HAIR REMOVAL FREQUENTLY ASKED QUESTIONS

### **Is it painful?**

No, SHR treatment is fast and painless. Cooling gel can be requested for every session.

### **Do I need to shave before coming for my treatment?**

Yes, please shave 1-day before the treatment. A standard fee of \$16.00 will be charged for our therapist to shave on your behalf.

### **How many session does it take to achieve permanent hair removal?**

Ideally it would be around 12 sessions depending on individual. But we do offer unlimited packages so you can continue for as long as there is still hair growth!

### **How long should the treatment intervals be?**

There should be a three-to-four week recovery or “down” time is required to meet this anagen phase as well as to give the skin a recovery time before the next treatment.

### **Will the treatment cause me to have ingrown?**

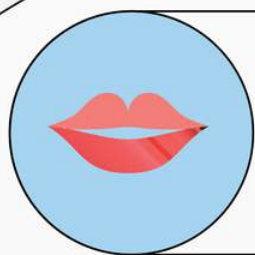

No, SHR does not create ingrowns but helps stop hair growth. Our therapist are trained to prevent this problem.

## WHAT IS DHR OR DIODE HAIR REMOVAL?

DHR is the latest technology of hair removal that uses a diode laser to target and destroy hair follicles, resulting in permanent hair reduction from various parts of the body, including the face, arms, legs, underarms and bikini area.

The diode laser emits a concentrated beam of light that is absorbed by the pigment in the hair follicles, heating them up and destroying them. This process is known as selective photo thermolysis. At the same time, it incorporates skin cooling to protect the surface of the skin.

The diode laser delivers high frequency, low fluence pulses and is safe for all skin types, including darker skin tones, and can be used to treat both large and small areas of the body.

**\* All Prices Are Inclusive Of GST**

## DIODE HAIR REMOVAL

### BENEFITS

Safe & Minimal Discomfort  
Effective On All Skin Types  
Fewer Sessions Required  
Long Lasting Results  
Precision Targeting  
Boosts Confidence  
Fast And Efficient  
Improved Skin

### AFTERCARE

#### *AVOID DIRECT SUN EXPOSURE*

Prevent skin irritation and reduce the risk of hyperpigmentation.

#### *AVOID HOT SHOWERS AND BATHS*

Hot water might irritate the skin. Avoid for at least 24 hours, including saunas and steam rooms.

#### *AVOID SCRUBBING AND EXFOLIATING FOR A WEEK*

Prevent irritation and allow skin to heal properly.

#### *USE GENTLE SKINCARE PRODUCTS*

Avoid products that contain alcohol, harsh chemicals, and fragrances. They can dry out the skin and cause irritation.

#### *AVOID WAXING, PLUCKING, OR SHAVING*

This can interfere with the hair growth cycle and reduce effectiveness of the treatment. Only shave a day or two before your next session.

## DIODE HAIR REMOVAL FREQUENTLY ASKED QUESTIONS

### **Is it painful?**

No, DHR treatment is fast and painless. Cooling gel will be applied on all body parts for every session.

### **Do I need to shave before coming for my treatment?**

Yes, please shave 1-day before the treatment. A standard fee of \$16.00 will be charged for our therapist to shave on your behalf.

### **How many session does it take to achieve permanent hair removal?**

Ideally it would be around 6-12 sessions depending on individual.

### **How long should the treatment intervals be?**

There should be a three-to-four week recovery or "down" time is required to meet this anagen phase as well as to give the skin a recovery time before the next treatment.

### **Will the treatment cause me to have ingrown?**

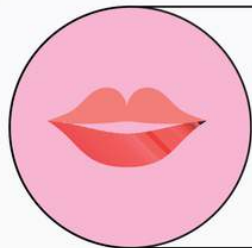

No, DHR does not create ingrowns but helps stop hair growth. Our therapist are trained to prevent this problem.

## DIFFERENCE BETWEEN DHR AND SHR?

### **Technology**

DHR uses a specific wavelength of light that is absorbed by the pigment in the hair follicles, while SHR uses a broad spectrum of light to target the hair follicles.

### **Effectiveness**

Both DHR and SHR treatments are effective at reducing hair growth, but DHR treatments may be more effective in eliminating ingrown and thicker hairs.

### **Number of Sessions**

DHR treatments typically require fewer sessions than SHR treatments to achieve the desired results. This is because the specific wavelength of light used in DHR is more effective at targeting the hair follicles and reducing hair growth.

More effective in reducing hair growth, eliminating ingrowth and thicker hairs

Longer treatment time but require lesser sessions

Permanence: High

Suitable for all skin types, especially darker skin tones to prevent burn

Painless

Cooling gel on all areas

Effective in reducing hair growth

Shorter treatment time but requires more sessions

Permanence: Low-Mid

Suitable for all skin types

Almost painless

Does not specifically require cooling gel

### K Derma Aquapeel

- Double Cleanse
- Hydro Dermabrasion
- Cucumber Soft Exfoliation Scrub
- Ultrasonic Scrubber
- Hyaluronic Acid Silk Mask
- LED Light Therapy
- Head Massage

K Derma Aquapeel is a safe and non-invasive treatment to deeply cleanse the skin with the use of exfoliation, hydration and integrated vacuum extraction for in depth cleansing to help unclog pores. It is also paired with Luxury Cell Peptide Ultra Moisturizing Cream to nourish the skin after. This treatment deeply cleanses impurities and allows skin care to be better absorbed.

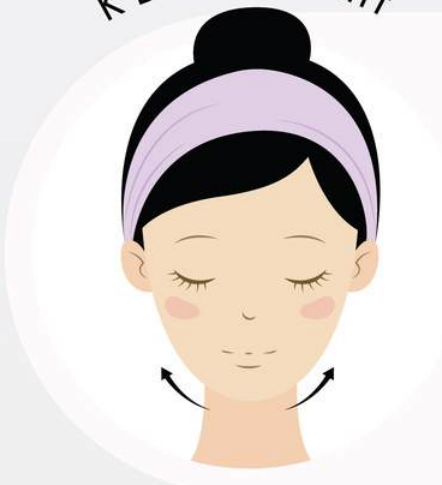

### K Derma Glow

- Double Cleanse
- Cucumber Soft Exfoliation Scrub
- Ultrasonic Scrubber
- Cold Compress & Ultrasound
- Hyaluronic Acid Silk Mask
- LED Light Therapy
- Head Massage
- Oxy Toner + Moisturizer + Sunblock

Glow treatment helps in hydrating and brightening the skin. Paired with Cold Compress, Ultrasound & Vitamin C Serum to achieve a smooth, even and glowy complexion.

### K Derma V-Lift

- Double Cleanse
- Cucumber Soft Exfoliation Scrub
- Ultrasonic Scrubber
- Cold Compress & Ultrasound
- Radio Frequency
- Hyaluronic Acid Silk Mask
- LED Light Therapy
- Head Massage
- Oxy Toner + Moisturizer + Sunblock

### K Derma Neck Care

V-Lift & Neck Care treatment uses a combination of Radio Frequency Cold Compress & Ultrasound treatment to lift, tighten and helps tone aging skin by stimulating collagen production and blood circulation on targeted areas with the help of our Face Rubbing Cream.

## FACIAL TREATMENTS

### 7INI BABYFACE

- Double Cleanse
- Hydro Dermabrasion
- Cucumber Soft Exfoliation Scrub
- Cleanse Impurities with Ultrasonic Scrubber
- Traditional Extraction w Hot Steam
- Cold Compress + Ultrasound + Radio Frequency
- Specially Curated Clay Mask
- Face + Head + Shoulder Massage
- Oxy Toner + Moisturizer + Sunblock

7INI Babyface Full Facial Treatment helps to cleanse, hydrate, brighten, tighten and lift sagging skin and improve wrinkles and fine lines. It is specially curated with premium ampoule to achieve glowy, soft, supple and dewy skin in just one treatment!

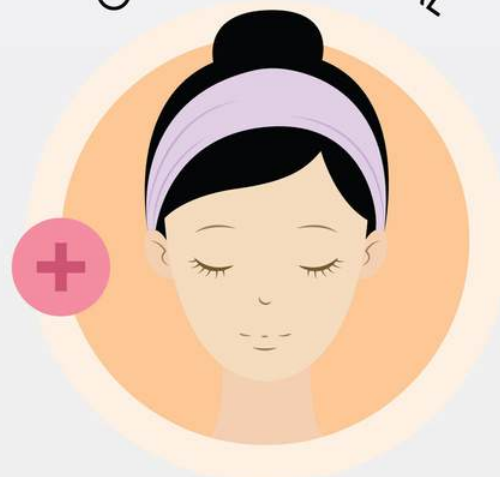

### MERIDIAN BOJIN

- Double Cleanse
- Cucumber Soft Exfoliation Scrub
- Cleanse Impurities with Ultrasonic Scrubber
- Traditional Extraction w Hot Steam
- Meridian Bojin Treatment
- Face + Head + Shoulder Massage
- Glass Ball Cold Compress
- Specially Curated Clay Mask
- Oxy Toner + Moisturizer + Sunblock

Bojing helps improve blood circulation of the skin by putting pressure on the meridian points to treat the internal and external factors of our skin concern. Glass ball is used to soothe the skin after with premium ampoule to boost hydration.

### ONAKASE FACIAL

This is a customised facial fully curated according to your personal skin type, needs and concerns on the current constitution to bring out the best results.

## FACIAL TREATMENTS

### IPL SKIN REJUVENATION

- Double Cleanse
- Cucumber Soft Exfoliation Scrub
- Cleanse Impurities with Ultrasonic Scrubber
- Traditional Extraction w Hot Steam
- Intense Pulse Light Treatment
- Face + Head + Shoulder Massage
- Glass Ball Cold Compress
- Specially Curated Clay Mask
- Oxy Toner + Moisturizer + Sunblock

IPL Skin Rejuvenation treatment helps to fade dark spots and inhibit melanin production. It prevents yellow complexion, tackle the causes of acne and side effects like scarring and reduces redness and inflammation. This process has no invasive procedure which is safe for the skin.

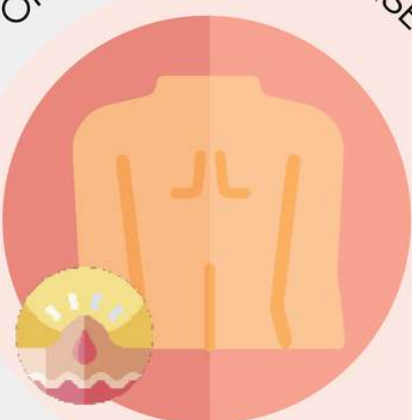

### 24K GOLD COLLAGEN V-LIFT

- Double Cleanse
- Cucumber Soft Exfoliation Scrub
- Extraction Using Ultrasonic Scrubber
- Cold Compress + Ultrasound + Radio Frequency
- Face + Head + Shoulder Massage
- Glass Ball Cold Compress
- 24K Gold Collagen Serum & Web Mask
- Oxy Toner + Moisturizer + Sunblock

24K Gold Collagen V-Lift treatment uses Cold Compress, Ultrasound and Radio Frequency treatment to lift, tighten and helps tone aging skin by stimulating collagen production and blood circulation on targeted areas with the help of our Face Rubbing Cream. Both combinations targets sagging skin, improve wrinkles and fine lines. It is fully enhanced with our 24K Gold Collagen Serum & Web Mask.

### OPT BACK ACNE CLEANSE

- Double Cleanse
- Hydro Dermabrasion
- Cucumber Soft Exfoliation Scrub
- Traditional Extraction w Hot Steam
- OPT Light Treatment
- Head + Shoulder + Back Massage
- Specially Curated Clay Mask
- Lotion Cream

OPT Back Acne Cleanse helps to treat acne problems, lighten scarring, reduce redness and inflammation.

# CARBOXYTHERAPY

Non-Invasive Carboxytherapy is a treatment during which a gas, carbon dioxide (CO<sub>2</sub>), is infused into the skin to encourage an increased flow of oxygen. Carbon dioxide is a naturally occurring gas in the body and as such it can not cause any allergic or other unwanted reactions.

By infusing carbon dioxide into the skin, an acidic environment develops. This signals our organism to secure oxygen to the tissue in the treated region and accumulate natural growth factors (vascular endothelial growth factors). Within several days after the treatment there is an increased natural distribution of oxygen in the places of application, a completely new microcirculation is created, lymphoid drainage is increased and in this process skin regeneration is achieved in a natural way.

During the treatment, a Carboxytherapy Gel is applied to the face in an even layer. A Carboxytherapy Activator Face Mask is then pressed firmly onto the gel. The interface produces a specific amount of carbon dioxide, which is infused into the skin.

## BENEFITS

- Improves dark eye circles
- Lifts and tightens your skin
- Brightens and even the skin tone
- Improves the hydration of you skin
- Visibly shrinks the size of your pores
- Improves the radiance and glow of your skin
- Improves the firmness and elasticity of the skin
- Visibly reduces the appearance of fine lines and wrinkles
- Detoxes the skin of free radical and environmental pollution
- Visibly reduces the appearance of nasolabial and forehead lines

**1x Session**

**\$98**

(Extraction Included)

**\* All Prices Are Inclusive Of GST**

## ACNE BUST

If you've been struggling with acne or unsightly blemishes, this treatment is right for you!

This facial uses high frequency technique to kill acne-causing bacteria, decreases inflammation, increases oxygen to the skin, improving the overall texture, tone, glow and helps to treat acne problems. All of this promotes collagen stimulation and elastin production, providing a firmer and more youthful appearance. The oscillation produced by high frequency aids in lymphatic drainage and helps to evenly disperse excess fluid.

### BENEFITS

- Oxygenates the skin
- Increases circulation
- Shrinks enlarged pores
- Safely kills acne-causing bacteria
- Minimises inflammation and redness
- Reduces acne and prevents future breakouts
- Reduces post-inflammatory hyperpigmentation

This treatment is considered to be a safe, gentle and therapeutic to skin rejuvenation. It also provides quick healing which restores your skin's health.

1x Session

**\$98**

(Extraction Included)

**\* All Prices Are Inclusive Of GST**

# LED CELL REGENERATION

LED light therapy uses various wavelengths that correspond to different visible colors.

Each color penetrates the skin at different depths. It can help reduce and improve different skin conditions and issues with all 7 different colors.

## TREATMENT INCLUDES

Double Cleanse  
Cell Regeneration LED Light  
Ultrasound w Premium Ampoule  
Cucumber Soft Exfoliation Scrub  
Traditional Extraction w Hot Steam  
Cleanse Impurities with Ultrasonic Scrubber

**1x Session**

**\$98**

(Extraction Included)

**\* All Prices Are Inclusive Of GST**

## LED CELL REGENERATION

### RED LIGHT

#### **ANTI-AGING | 630NM**

Stimulates collagen and elastin to fight sagging skin and reduce wrinkles.

### BLUE LIGHT

#### **ANTI-ACNE | 415NM**

Kills bacteria and shrinks sebaceous glands to combat acne, redness and scars.

### YELLOW LIGHT

#### **DISCOLORATION | 590NM**

Promotes circulation to undo sun-damage, reduce age spots and improve radiance.

### CYAN BLUE LIGHT

#### **SKIN SOOTHER | 500NM**

Reduces swollen capillaries and balances skin texture to enhance complexion.

### PURPLE LIGHT

#### **CELL REJUVENATION | 390NM**

Fights off acne and signs of aging, while reducing inflammation, scars and sagging.

### GREEN LIGHT

#### **SKIN BALANCER | 525NM**

Reduces melanin and promotes drainage to balance oily skin and enhance radiance

### WHITE LIGHT

#### **ULTIMATE REPAIR | ALL WAVELENGTHS**

Penetrates skin deepest and speeds up skin metabolism to increase regeneration

# SILHOUETTE INSTALIFT

The Silhouette InstaLift facial is an exquisite fusion of traditional and modern skincare techniques. Combining the ancient art of gua sha with the latest ultrasonic technology, this innovative treatment utilizes an advanced gua sha tool known as the 少女线 to infuse gentle microcurrents deep into the skin, elevating the traditional gua sha technique to new heights. Silhouette InstaLift is designed to rejuvenate and restore youthful vitality to the skin. Paired with our 24K Gold Serum, the result is a remarkable improvement in circulation, lymphatic drainage, and collagen production, leaving your skin looking visibly radiant and lifted. It is the ultimate choice for those seeking to combat the signs of aging and achieve a natural glow. This treatment is suitable for all skin types and can also be tailored to address specific skin concerns, making it versatile and highly effective. Beyond the skin benefits, the soothing massage provides a deeply relaxing experience, melting away stress and tension.

## BENEFITS

Enhanced Elasticity  
Lymphatic Drainage  
Improved Circulation  
Collagen Stimulation  
Lifting and Contouring  
Combat Signs of Aging  
Natural and Radiant Glow

# B-TOX NANO TECHNOLOGY PEEL

B-Tox Peel is a non-chemical peeling method for all skin types. It is a non-invasive autotherapy for the skin. Unlike chemical peels, the procedure has no age restrictions and is suitable for any skin types, most importantly it does not cause side effects.

B-Tox Peel is patented with an ingredient called Silitox™. It has excellent results on Oily Acne Prone Skin, Pigmentation, Uneven Skin Tone and Aging Skin. However it can be used on all skin types.

ACNE SKIN

Silitox™ removes and detox the epidermal layer of skin. Soothes inflammation and minimizes pores. It also reduces bacteria for acne infection.

PIGMENTATION,  
UNEVEN SKIN TONE

Silitox' stimulates circulation and cell regeneration. It boosts our skin's collagen level and elastin of the skin. Smooths wrinkles and soften the skin.

AGING SKIN

Silitox removes dead skin and leaves your skin radiant and healthy. Prevents blemish, age spots and removes keratosis.

## B-TOX NANO TECHNOLOGY PEEL

### BENEFITS

Cell regeneration  
Restructures skin tissues  
Purify Acne and oily skin  
Detoxify skin with dull skin  
Smooth Wrinkles, shrink pores  
Improves hyper-pigmentation  
Promotes collagen and elastin  
Regulates production of sebum

### AFTERCARE

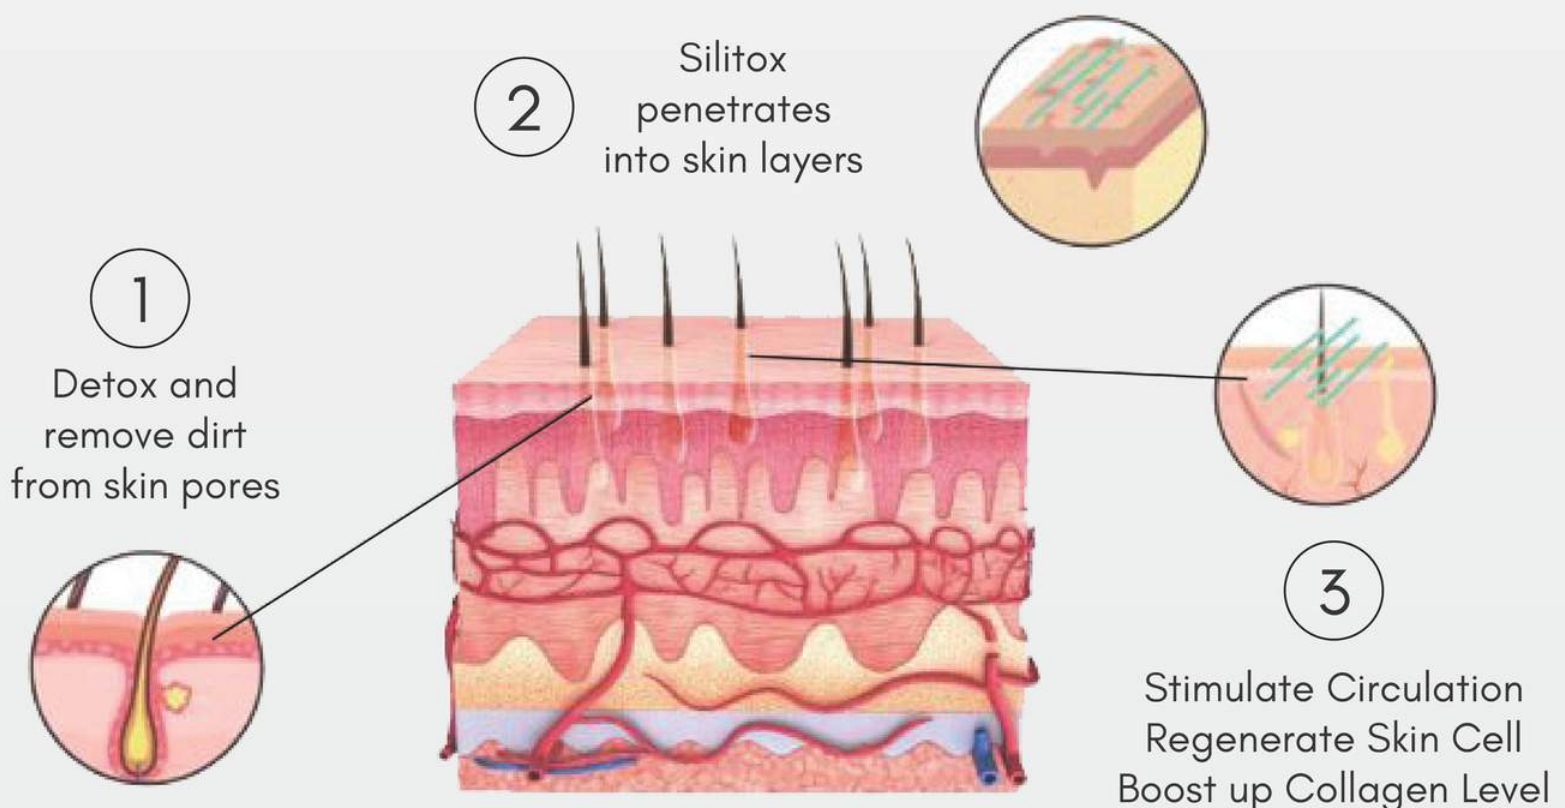

## B-TOX NANO TECHNOLOGY PEEL HOW DOES B-TOX PEEL WORKS?

A mixture of B-Tox solution and powder will be applied to penetrate the skin.

Within 48-52 hours after the treatment, these mineral rich Silitox™ microneedles penetrate into the dermis and the epidermal layer of the skin and dissolve. This starts the process of skin renewal from the inside, linking collagen, elastin and fibrin fibers together.

By stimulating capillary blood circulation, B-TOX activates detoxification, promotes cell division and brightens pigment spots. By promoting the epidermal cell, it not only allows thickened scaly skin layer, but helps eliminate dead skin and keratin that were built up in the pores and epidermis. It also helps accelerate cell regenerative cycles.

# B-TOX NANO TECHNOLOGY PEEL

B-Tox Peel is a non-chemical peeling method for all skin types. It is a non-invasive autotherapy for the skin. Unlike chemical peels, the procedure has no age restrictions and is suitable for any skin types, most importantly it does not cause side effects.

# DERMA ROLLER MICRONEEDLING TREATMENT

A dermaroller is a skin care device used to help rejuvenate the skin, treat acne scarring/stretchmarks, and reduce signs of aging.

When the dermaroller is rolled over the skin, the small, fine needles on the roller puncture the skin. The holes that the needles create in the skin are tiny and considered to be superficial.

When the skin is punctured, this creates a controlled skin injury. It does not cause actual damage to the outer layer of skin. The needles help to break down any scar tissue.

## MAIN FUNCTION OF DERMAROLLER MICRONEEDLING

- Shrink pores
- Reduce fine lines /wrinkles
- Reduce production of sebum
- Boost Collagen skin rejuvenation
- Reduce appearance of stretchmarks
- Strongly recommended to treat facial/acne scars

# BLACK DOLL TREATMENT

The Black Doll treatment, also referred as 'Hollywood Peel\*' is for those seeking clear skin without any large pores, blackheads, dark skin and impurities. This treatment gives an instant glow with lightened skin tone.

The Black Doll Carbon Peel treatment is a painless, non-invasive facial that uses nano-carbon particles with a high intensity pulse of light to destroy dirt and blackheads that are clogged deep in skin follicles. A carbon enriched lotion is applied on the skin before it is treated with the laser. The heat from the laser enables the carbon powder to get absorbed into the skin, stimulating the skin cells.

The process then establishes the regeneration process by encouraging growth of collagen and elastic fibers. The treatment leaves the skin with tighter pores, reduced acne scars, reduced wrinkles and collagen growth stimulated through the elimination of dead skin. The facial is also known for instant results in achieving glowing and fairer skin.

## WHAT TO EXPECT AFTER GETTING A BLACK DOLL CARBON PEEL TREATMENT?

This is a simple procedure that gives instant results, it rejuvenates the skin in many ways like:

Plumps the skin

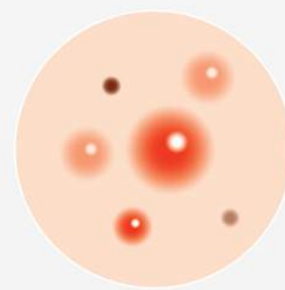

Treats oily skin

Tightens enlarged pores

Whiten and brightens uneven skin

Diminish Acne and Acne Scars

### **DOES THE TREATMENT HURT?**

Just like IPL Photo Rejuvenation, the Black Doll Treatment uses the laser to penetrate in the skin that can cause a sensation of heat. However it is painless and non invasive.

### **HOW MANY SITTINGS ARE REQUIRED FOR OPTIMUM RESULTS?**

You will usually require 4-6 sittings for optimal visible result but this does depend on the pre-skin conditions.

# DERMA DRIP INFUSION

Experience the ultimate in skincare with our revolutionary Derma Drip Infusion treatment — a cutting-edge facial solution designed to address all your skin concerns with precision and ease. This treatment utilizes a state-of-the-art spray gun to deliver specialized solutions deep into your skin, enjoying a painless, non-invasive experience without the use of needles. Due to the micro-sized molecules in our advanced formulas, it ensures optimal absorption and effectiveness.

## CHOOSE YOUR PERFECT SOLUTION

**Antioxidant:** Protect and revitalize your skin with a formula rich in antioxidants that neutralize free radicals, reducing oxidative stress and promoting a healthier, more resilient complexion.

**Brightening/Whitening:** Reveal a radiant, youthful glow with our brightening solution, which targets dullness and uneven skin tone to give you a luminous complexion.

**Soothing & Hydration:** Soothe and replenish your skin with our hydrating formula, enriched with calming ingredients that restore moisture and comfort to irritated or dry skin.

**Anti-Aging:** Rejuvenate your appearance with our anti-aging solution, packed with powerful ingredients that reduce fine lines and wrinkles promoting a firmer, more youthful look.

**Revitalizing:** Restore vitality and freshness to tired skin with our revitalizing formula, designed to energize and rejuvenate for a more vibrant and resilient complexion.

# FACE RF RADIOFREQUENCY

FACE  
(Includes Double Chin)

RF radiofrequency face treatments helps in tightening and firming skin. Like laser and LED treatments, radiofrequency uses energy to boost collagen and elastin production. It is used to tighten the underlying skin structure and contour the face to create firm, toned and youthful looking skin. It helps to firm, tighten and lift as well as reinvigorating skin for a healthy glow and also helps you achieve tighter skin for a slimmer look.

# HIFU Face & Neck

High-Intensity Focused Ultrasound (HIFU) is a fast, non-invasive therapeutic technique that uses ultrasonic waves to heat the deeper layers of skin and cause collagen production, resulting in skin tightening and a more youthful appearance with no downtime.

HIFU for the face tightens and lifts the skin, irons out wrinkles and fine lines, shrinks pores, targets the 'V' line formation and jowl lines. As an anti-aging treatment, HIFU can last up to 1-2 years and can continue to firm up your skin for months after your treatment.

## BENEFITS

- V shape face
- Smoothens skin
- Wrinkle reduction
- Reduce acne scars
- Softening smile lines
- Reducing crow's feet
- Reducing nasolabial folds
- Enhancing jawline definition
- Tightens sagging skin on the neck
- Lifting the cheeks, eyebrows, and eyelids

HIFU is NOT suitable for people with braces, lesions or severe damage to the treatment area, metallic implants in body (not including tooth) or severe acne.

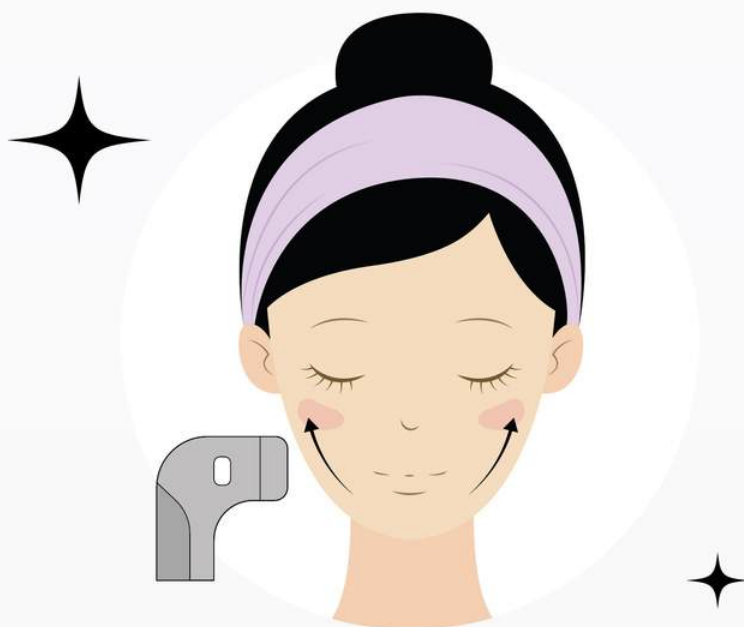

HIFU is also not allowed on areas with botox and fillers done 1-2 weeks before, however these areas can be avoided during the treatment.

Treatment can be done every 2-4 weeks, best results in 6 weeks.

## SKIN CAMOUFLAGE TREATMENT HOW DOES SKIN CAMOUFLAGE TREATMENT WORKS?

Our skilled professionals tailor the treatment by using a skin tone detection device to measure the melanin, carotene and hemoglobin levels in the skin to match your skin tone to the colour palette, which will then be expertly deposited into the skin's upper layers by micropigmentation method – making imperfections less noticeable by blending them with the surrounding skin.

### BENEFITS

- Conceal Imperfections
- Customized Approach
- Boosts Confidence
- Minimal Downtime
- Non-Invasive
- Long Lasting
- Versatility

\*Results may vary depending on individual factors such as skin type, scar characteristics, severity of pigmentation and aftercare. Additionally, those seeking complete scar elimination or unrealistic expectations may not find this treatment suitable.

## SKIN CAMOUFLAGE TREATMENT FREQUENTLY ASKED QUESTIONS

### **Is the procedure painful?**

Minor discomfort may be experienced in certain areas, but overall the procedure is nearly painless and comfortable.

### **How long do the results last?**

Results from skin camouflage can last for about a year, and may vary depending on individual factors and metabolism.

### **Is there a downtime for this treatment?**

There is no downtime for this treatment.

### **Is there a noticeable effect after just one session of skin camouflage treatment?**

The initial session may not show significant results, achieving approximately 10-15% difference. The effects become more noticeable with the second session.

### **Why doesn't the treatment show immediate results in one session?**

The therapist is limited to 'surface-level' procedures, making it unwise to apply an excessive amount at once. Overapplication in a single session may result in skin injury and contribute to darkening.

## SKIN CAMOUFLAGE TREATMENT FREQUENTLY ASKED QUESTIONS

### **How many sessions are recommended?**

It is recommended to undergo one course of treatment, typically consisting of 3-4 sessions, based on the severity or condition of scars and pigmentation.

### **What is the interval between each session?**

There is a 1.5 month interval between each session to ensure the treatment area is completely healed before proceeding to the next session.

### **Can anyone undergo skin camouflage treatment?**

While many individuals can benefit from this procedure, it is essential to note that severity of pigmentation plays a part in determining suitability for the treatment.

### **Conditions NOT suitable for treatment:**

Pregnancy or breastfeeding, immune disorders, skin conditions such as psoriasis, history of keloid scarring, sensitive skin, textures with excessive prominence or severe indentations, black birthmarks, purplish-red stretchmarks.

*\*Postpartum mothers should wait for at least 10-12 months before proceeding with the treatment.*

*\*Scars must be fully healed (at least 1 year) and are not actively changing or prone to complications.*

# TEETH WHITENING

1x Session

**\$98**

3x Session

**\$228**

Teeth whitening is a common cosmetic procedure for a more a confident and beautiful smile. Dental whitening is typically utilised for people who want to improve the colour of their teeth and brighten their overall smile. When the tooth loses its natural shine, becomes discoloured, or stained, teeth whitening can provide excellent cosmetic results.

Tooth discolouration can be caused by various factors such as smoking or consumption of certain food and beverages such as coffee and tea. After the teeth whitening procedure, your teeth will regain its shine and colour, giving you a bright and radiant smile that you've always wanted.

## **HOW TEETH WHITENING WORKS?**

Teeth are made up of an inner dentin layer and a hard outer enamel layer, which protects the teeth. The enamel layer of the tooth is porous which means stains can get into the tooth and cause discolouration. chairside teeth whitening uses whitening solutions to penetrate the enamel layer of each tooth, once the solution has fully penetrated the tooth, an activator (typically a source of heat or light) is used to set off an oxidation reaction that reacts with the discoloured molecules in the teeth and as a result, whitens teeth.

## **BENEFITS OF TEETH WHITENING**

The primary benefit of teeth whitening is removal of stains: Acidic beverages like coffee, tea, wine, and some foods cause discolouration, erosion of enamel and staining in the teeth. Teeth whitening process lightens the stains and brighten your smile.

**\* All Prices Are Inclusive Of GST**

## TEETH WHITENING FREQUENTLY ASKED QUESTIONS

### **I'm currently on braces treatment, can I get my teeth whitened?**

For people who are currently undergoing orthodontic treatment such as conventional braces will not be able to get their teeth whitened until they've completed their orthodontic treatment.

### **How do I maintain my white teeth after teeth whitening treatment?**

The maintenance of your smile is highly dependant on your eating, drinking and oral hygiene habits. After completing your teeth whitening treatment, your smile will be bright and radiant. However, your teeth can still be stained by certain foods and drinks. We usually recommend our patients to rinse their mouth after eating or drinking in order to prevent discolouring agents from settling onto the surface of teeth; reducing the risk of discolouration.

### **Are the results from teeth whitening permanent?**

The results from teeth whitening are NOT permanent. The results from tooth whitening will diminish with time and patients will need to undergo teeth whitening treatments every so often to address both intrinsic and extrinsic stains. The results from chairside whitening will generally last between 12 - 18 months on average.

## TEETH WHITENING FREQUENTLY ASKED QUESTIONS

### **Does the process hurt?**

No, not at all! Teeth whitening is non invasive and painless.

### **How many sessions to see results?**

IN JUST ONE! However a minimum of 3 sessions is highly recommended for best results.

### **How long does one session take?**

It usually takes about 45minutes.

### **Can I still do this if my teeth is sensitive?**

Yes you can.

The solution we use is completely safe and contains 0% peroxide yet it still offers optimal results.

### **I have a dental implant/crown/ bridge, can I still get my teeth whitened?**

Teeth whitening treatment will only work for natural teeth. Dental prosthetics will not be affected by teeth whitening treatment. Patients with dental prosthesis will need to discuss the prospect of whitening their teeth with their dentists in order to unify the colour of their natural teeth with the prosthetics.

## 360° FATFREEZE TREATMENT WHAT IS FAT FREEZE?

Fat freezing, a procedure that uses freezing temperatures to break down fat cells for a period of time in the aim to reduce up to 20%-27% stubborn fats of the targeted area. It is a non-invasive and non-surgical alternative to liposuction.

The treatment takes about 35-45 minutes per session and can be done every 3-4 weeks with no downtime.

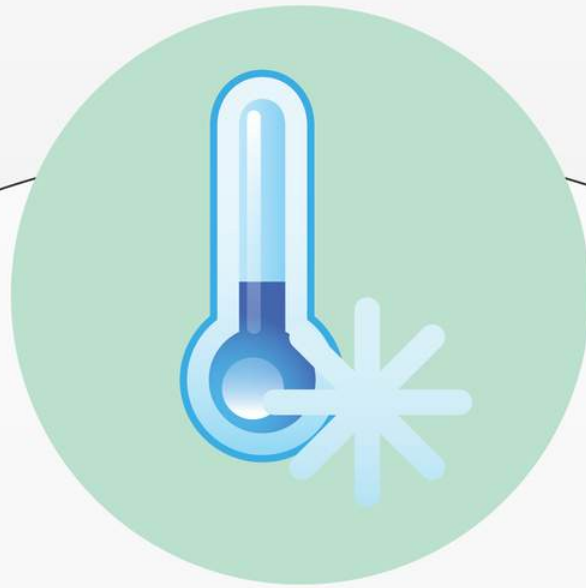

It is used to target areas of the body where it is more difficult to remove stubborn fat by diet and or exercise. It can be selectively done to target any part of the body; such as tummy, love handles, thighs, arms, armpit fats or even double chin according to every individual's problematic areas. The process includes freezing membranes and paddles with vacuum suction to crystallize fat cells.

## 360° FATFREEZE TREATMENT FREQUENTLY ASKED QUESTIONS

### **HOW DOES THE FAT FREEZING PROCEDURE WORK?**

Fat Freezing, uses a controlled cooling system to selectively cool then freeze fat cells, which are capable of being destroyed at low temperatures without damage to surrounding skin tissue and blood vessels. Once frozen, the dead fat cells are flushed out of the body naturally through your lymphatic system over 6 to 8 weeks.

### **WHAT HAPPENS TO THE FAT CELLS?**

Following a set exposure to cooling, your fat cells undergo a natural process of cell elimination. The body's normal metabolic processes gradually remove the fat cells in the area treated, a process much like the elimination of fat from digested food over a period of time.

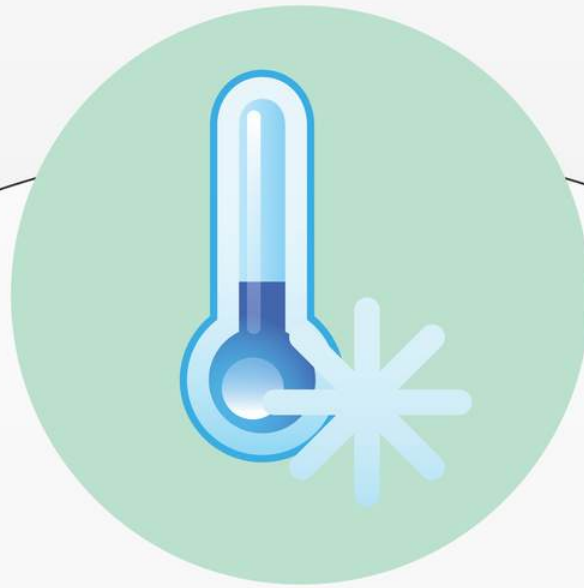

### **WHO IS A GOOD CANDIDATE?**

Fat Freezing treatment is ideal for those at a stable weight with small to moderate areas of stubborn fat resistant to diet and exercise. The procedure also offers a quick, effective and affordable treatment option with minimal associated discomfort and downtime for those seeking non-invasive alternatives to surgery.

## 360° FATFREEZE TREATMENT FREQUENTLY ASKED QUESTIONS

### **WHAT LONG TERM RESULTS CAN I EXPECT?**

Fat cells, when exposed to controlled cooling, undergo a process of crystallization and eventual destruction which results in a gradual reduction in thickness of the fatty layer. The body's normal metabolic process gradually removes the fat cells in the treated area - a process similar to the elimination of fat from digested food.

The result is a noticeable decrease in fatty bulges, which is typically visible in most patients two to four months following the treatment.

### **WHO SHOULD AVOID FATFREEZE?**

#### **Cryoglobulinemia**

A condition where abnormal proteins in your blood thicken in cold temperatures

#### **Cold urticaria**

A skin condition that causes hives on your skin when it gets cold

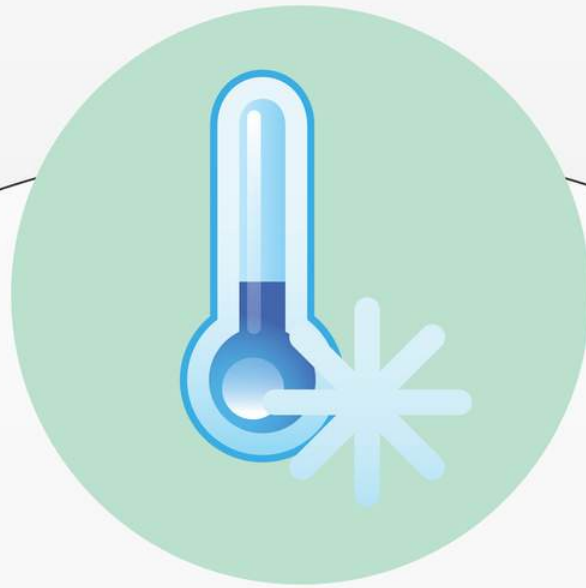

#### **Paroxysmal cold hemoglobinuria**

A type of anemia that destroys your red blood cells when you're in cold temperatures

## 360° FATFREEZE TREATMENT FREQUENTLY ASKED QUESTIONS

### **HOW IS THE FAT FREEZING PROCEDURE PERFORMED?**

Unlike traditional surgical procedures, the fat freezing procedure is a non-invasive, needle free procedure which requires no sedation or anesthesia. During the treatment, a non-invasive membrane applicator is applied to the skin's surface with a anti-freezing membrane to deliver precisely controlled cooling to selectively target and eliminate the fat cells in the area.

Once in position, the cooling applicator remains on the skin for a period of approximately 35-45 minutes per treated area. During this time you will be able to sit or lie comfortably.

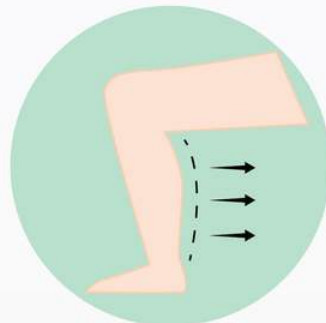

### **WHAT HAPPENS AFTER THE PROCEDURE?**

Immediately after the procedure the treated area may appear slightly red and feel cool or numb to touch. Some slight, temporary bruising may also be present, however this should subside over the subsequent days. Following the procedure, most people typically resume their normal routine and activities and are able to return to work and exercise that same day.

## RF RADIOFREQUENCY + CAVITATION SLIMMING TREATMENT

The combined treatment of RF & Cavitation is an ideal method that can reverse localized fat and eliminate cellulite. Completely no downtime and non-invasive, coupled with astonishing permanent results, it is a treatment that focus on the degradation of fatty cells, eliminates cellulite and tackles stubborn fats.

Cavitation uses scientifically proven non-invasive technology to break down unwanted fat whilst the RF radio frequency is a non-invasive heat treatment that helps tighten, contour and refine deeper lines and / or cellulite of the skin over the face and body

### BENEFITS

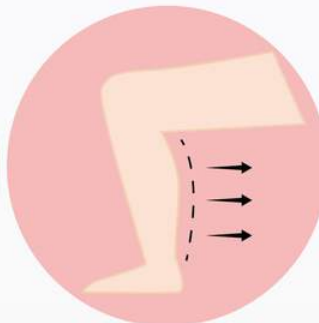

- Skin tightening
- Immediate visible results
- Normalizes stretch marks
- Reduction of localized fat
- Non-invasive No downtime
- Affect the deepest fat layers
- Boosts and accelerates lipolysis
- Improvement of blood circulation
- Permanent elimination of cellulite
- Beautifies the appearance of the skin
- Reduces loosening, cellulite and swelling

## WHAT IS EMSLIM MUSCLE TRAINER TREATMENT?

EMSLim is a focused electro-magnetic treatment with safe intensity levels for fat burning and muscle building system.

It uses HI-EMT (high-intensity electromagnetic muscle trainer) and RF (radiofrequency) technology.

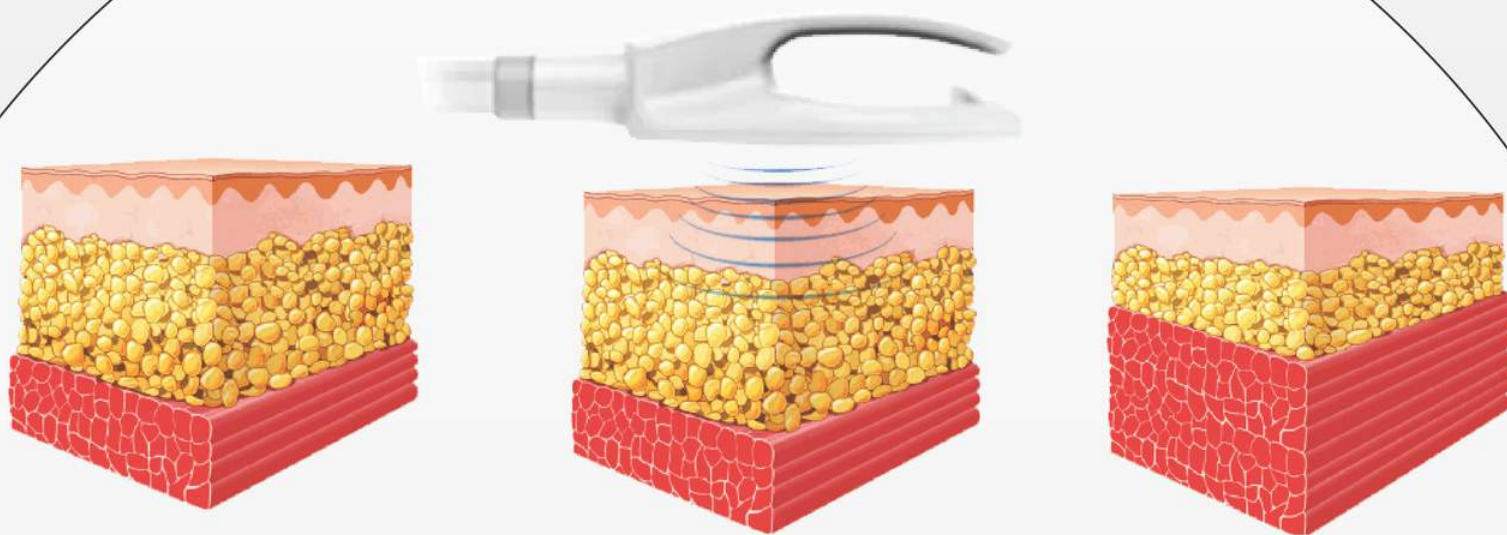

The applicators generate intense electromagnetic pulses that cause involuntary muscle contractions. One 30minute session is equivalent to 30,000 contractions. They are placed on the target muscle area, such as the abs, thighs, calves, arms, buttocks and also fix problems like diastasis recti.

The treatment provides high intensity energy delivery in a short time, allowing the muscles to work. In this way, you can both burn fat and get in shape. It can be used for different purposes in different parts of the body with many program options. Best results with 2-3 treatments every week and 6-8 sessions per area.

## EMSLIM MUSCLE TRAINER TREATMENT WHAT IS EMSLIM MUSCLE TRAINER TREATMENT?

EMSlim focuses the electromagnetic field through all skin and fat in order to effectively stimulate the muscle, providing the most intensive continuous contractions which is ideal for muscle growth, and inducing apoptosis, that takes place over the course of 10-14 days, rather than months.

EMSlim increases the muscle mass of the body up to 25%, and it loses fat up to 30%.

## LIPO LASER WHAT IS LIPO LASER?

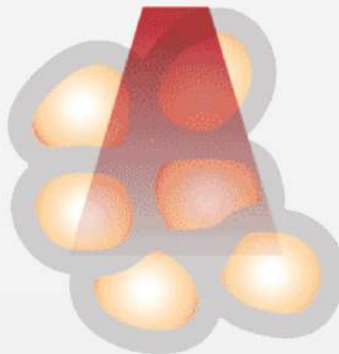

Lipo Laser is the latest laser lipolysis, offering you a way to achieve fat reduction, inch loss and body contouring with no pain, no needles and no downtime. Lipo Laser emits low levels of laser energy, which creates a chemical signal in the fat cells, breaking down the stored triglycerides into free fatty acids and glycerol, and releasing them through channels in the cell membranes.

### BEFORE

Unused Stored  
Energy Sits in Fat Cells

### DURING

Low Level Lasers Break  
Down Fat Cells, Releasing Energy

### AFTER

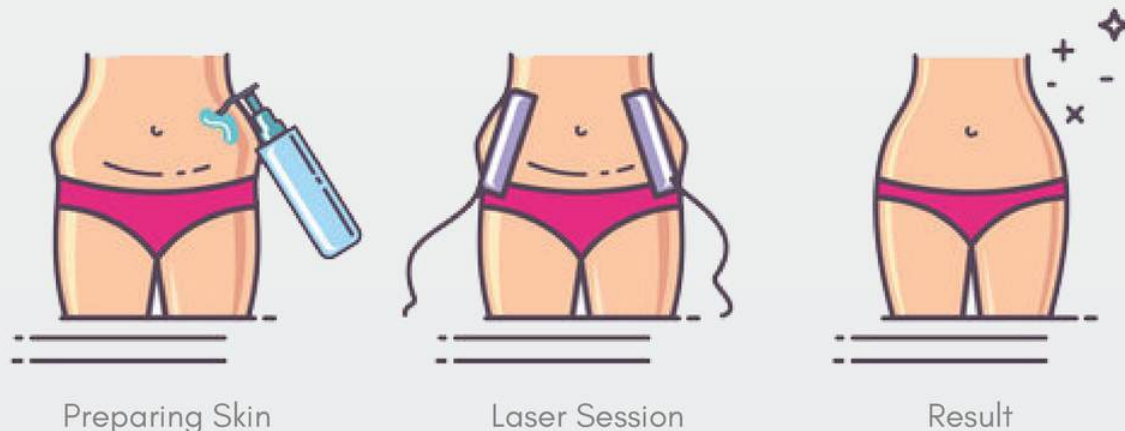

Fat Cells Shrink, Body  
Burns the Released Energy

Lipo Laser can be used effectively on the parts of the body where localized fat deposits are resistant to diet and exercise. It can also reduce cellulite and tighten skin.

Results can be immediate right after the treatment.  
There are no side effects or downtime associated  
with this treatment.

For even better results of fat loss, you can combine the treatment  
with Fatfreeze and RF+Cavitation treatments

# HIFU BODY SCULPTING

High-Intensity Focused Ultrasound (HIFU) Body Sculpting is a new technology that can permanently destroy fat cells without harming the surface of the skin. The energy of ultrasound waves can penetrate a few centimeters below the surface of the skin and help reduce fat in the chosen areas of the body.

Not only does it permanently destroy fat, but it also stimulates new baby collagen and elastin to make the skin look; tighter and firmer, reducing cellulite at the same time. This safe, non invasive fat loss treatment is perfect for those stubborn fat areas that just won't budge.

Fat dissolving can be achieved using specific ultrasound heads that target the layers of the skin where fat is deposited and stored.

This feature specifically helps shift fat and tighten the skin for areas such as the stomach, lower back, inner and outer thighs, buttocks, under chin (double chin) and sagging and loose upper arms.

## 360° WHITENING CAPSULE

This treatment provides full body + face whitening effects and collagen stimulation giving you glowing glass skin. Paired with our in-house milk whitening lotion you'll see an overall improvement in skin tone and visibly fair skin in just 30 minutes.

Using advanced Phototherapy LED red light, it penetrates the skin to inhibit melanin production and stimulates the body's natural rejuvenating process. This therapy not only helps you to achieve skin whitening, it also has tons of other amazing health benefits!

### **After 1 session**

You will feel energised, smoother skin, blood viscosity reduced.

### **After 8 sessions**

Improved quality of sleep, reduced dark eye circles and eye bags, rejuvenated, glowy complexion and better bowel movements.

### **After 12 sessions**

Diminished appearance of freckles, wrinkles start to reduce.

### **After 16 sessions**

Skin lifting and tightening

### **After 24 sessions**

Blood lipids, blood pressure and blood sugar starts to decrease, alleviates joint pains, optimised wound healing.

**Long term regular usage will significantly improve immunity health, skin elasticity and produce excellent anti-aging benefits.**

\*Red light is safe for regular use as it does not contain any type of UV light. As such, you don't have to wait too long between sessions - recommended to book for your next treatment just 3 days after the last one!

# MTS High Frequency Hair Growth Treatment

MTS High Frequency Hair Growth treatment is a procedure that promotes hair growth and improves hair density. It is a non-invasive treatment that can be used to address various hair loss conditions, including androgenetic alopecia (male and female pattern baldness).

This innovative technique harnesses the skin's regenerative abilities to their fullest extent.

## MTS HIGH FREQUENCY HAIR GROWTH TREATMENT

### BENEFITS

Enhances Scalp & Hair Health  
Stimulates Hair Growth  
Natural Looking Results  
Improves Hair Density  
Boosts Confidence  
Non-Invasive

### AFTERCARE

#### *AVOID SUN EXPOSURE*

After the treatment, avoid direct sun exposure to the scalp for at least 24-48 hours to prevent skin irritation and reduce the risk of hyperpigmentation.

#### *AVOID HOT SHOWERS AND BATHS*

For the first 24-48 hours after the treatment, avoid hot showers and baths, as well as saunas and steam rooms. Hot water can irritate the scalp.

#### *AVOID SCRUBBING AND EXFOLIATING*

For the first few days after the treatment, avoid scrubbing or exfoliating the scalp. This can help prevent irritation and allow the skin to heal properly.

## MTS HIGH FREQUENCY HAIR GROWTH TREATMENT HOW DOES IT WORKS?

Starting with a complimentary herbal scalp care and steam, this treatment involves the use of a microneedling device to create tiny punctures in the scalp, which stimulates the production of collagen and elastin and increases blood flow to the hair follicles.

This process helps to rejuvenate the scalp and promote the growth of new, healthy hair.

During the microneedling process, we will incorporate the use of a Hair & Scalp Intensive Ampoule, which contains peptide and biotin. The combination of microneedling and the ampoule enhances the efficiency of the treatment by facilitating the deeper penetration of the product into the scalp. This aims to stimulate the growth of new hair, strengthens existing hair and promotes healthy scalp.

The high-frequency wand will be administered following the microneedling process. It works by emitting a gentle electrical current that helps to increase blood circulation to the scalp, which can improve the delivery of nutrients and oxygen to the hair follicles.

In addition to promoting hair growth, the high-frequency wand can also help to reduce inflammation and kill bacteria on the scalp, which can improve overall scalp health and reduce the risk of hair loss.

MTS Hair Growth treatment is generally considered to be safe and effective. The number of treatments required can vary depending on the severity of the hair loss and the individual's response to the treatment.

For optimal results, a weekly treatment scheduled for 12 weeks is recommended. An interval of one week between each session is considered ideal, allowing sufficient time for the scalp to heal and for new hair growth to occur.

## WHICH TO CHOOSE?

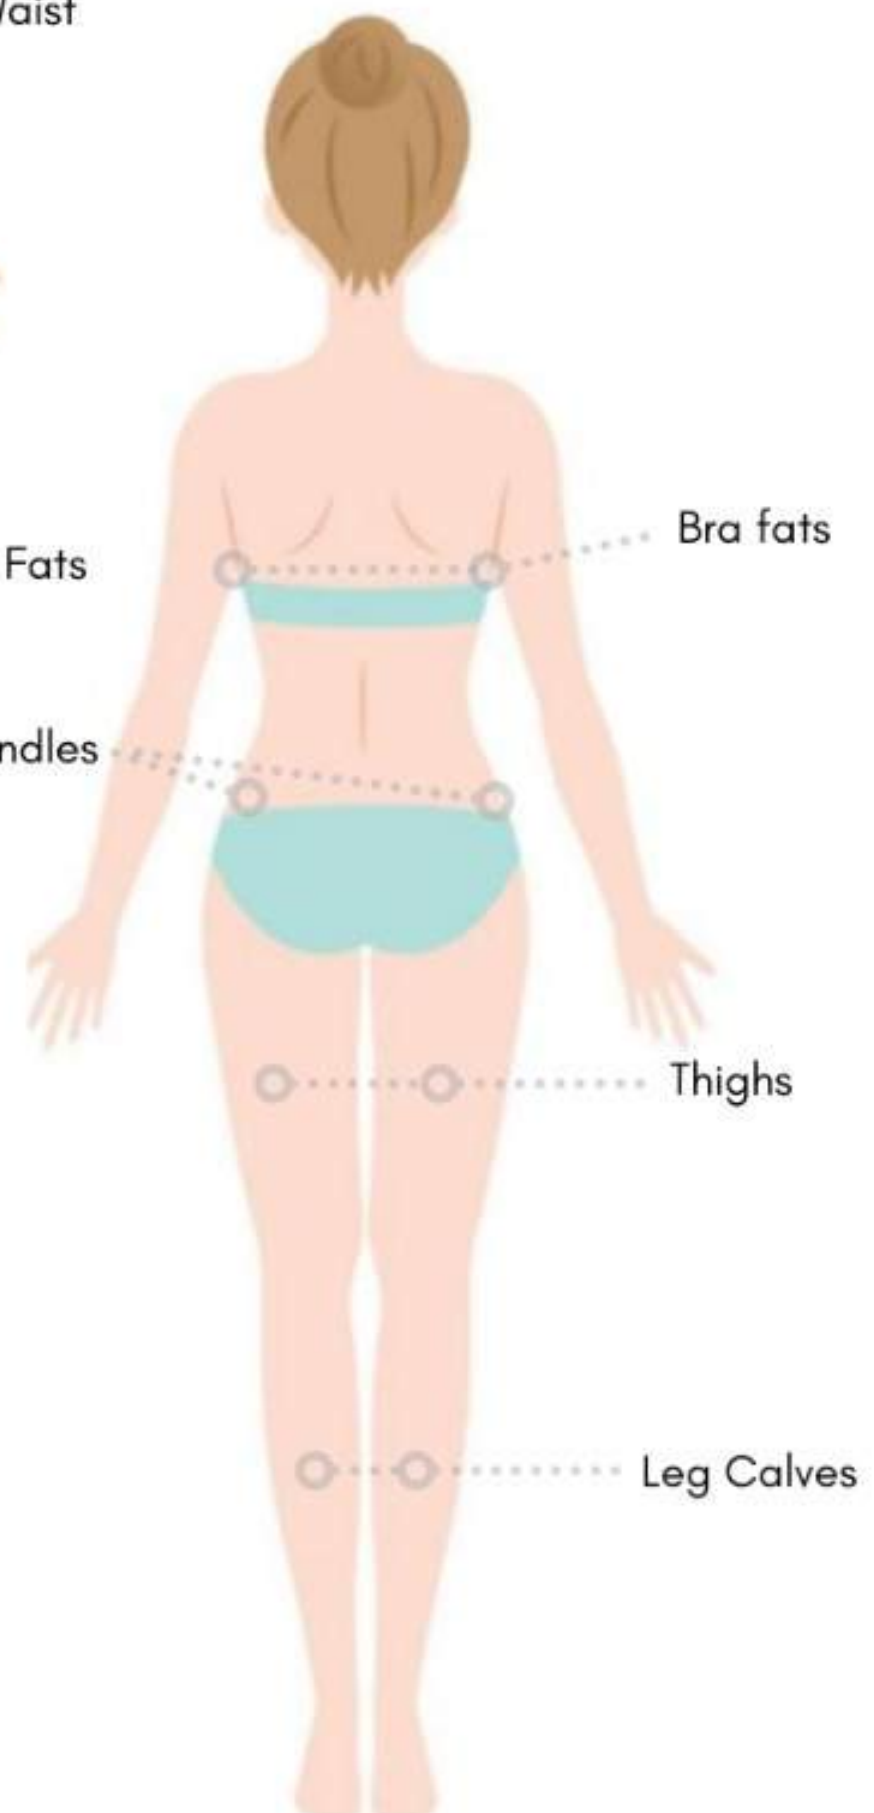

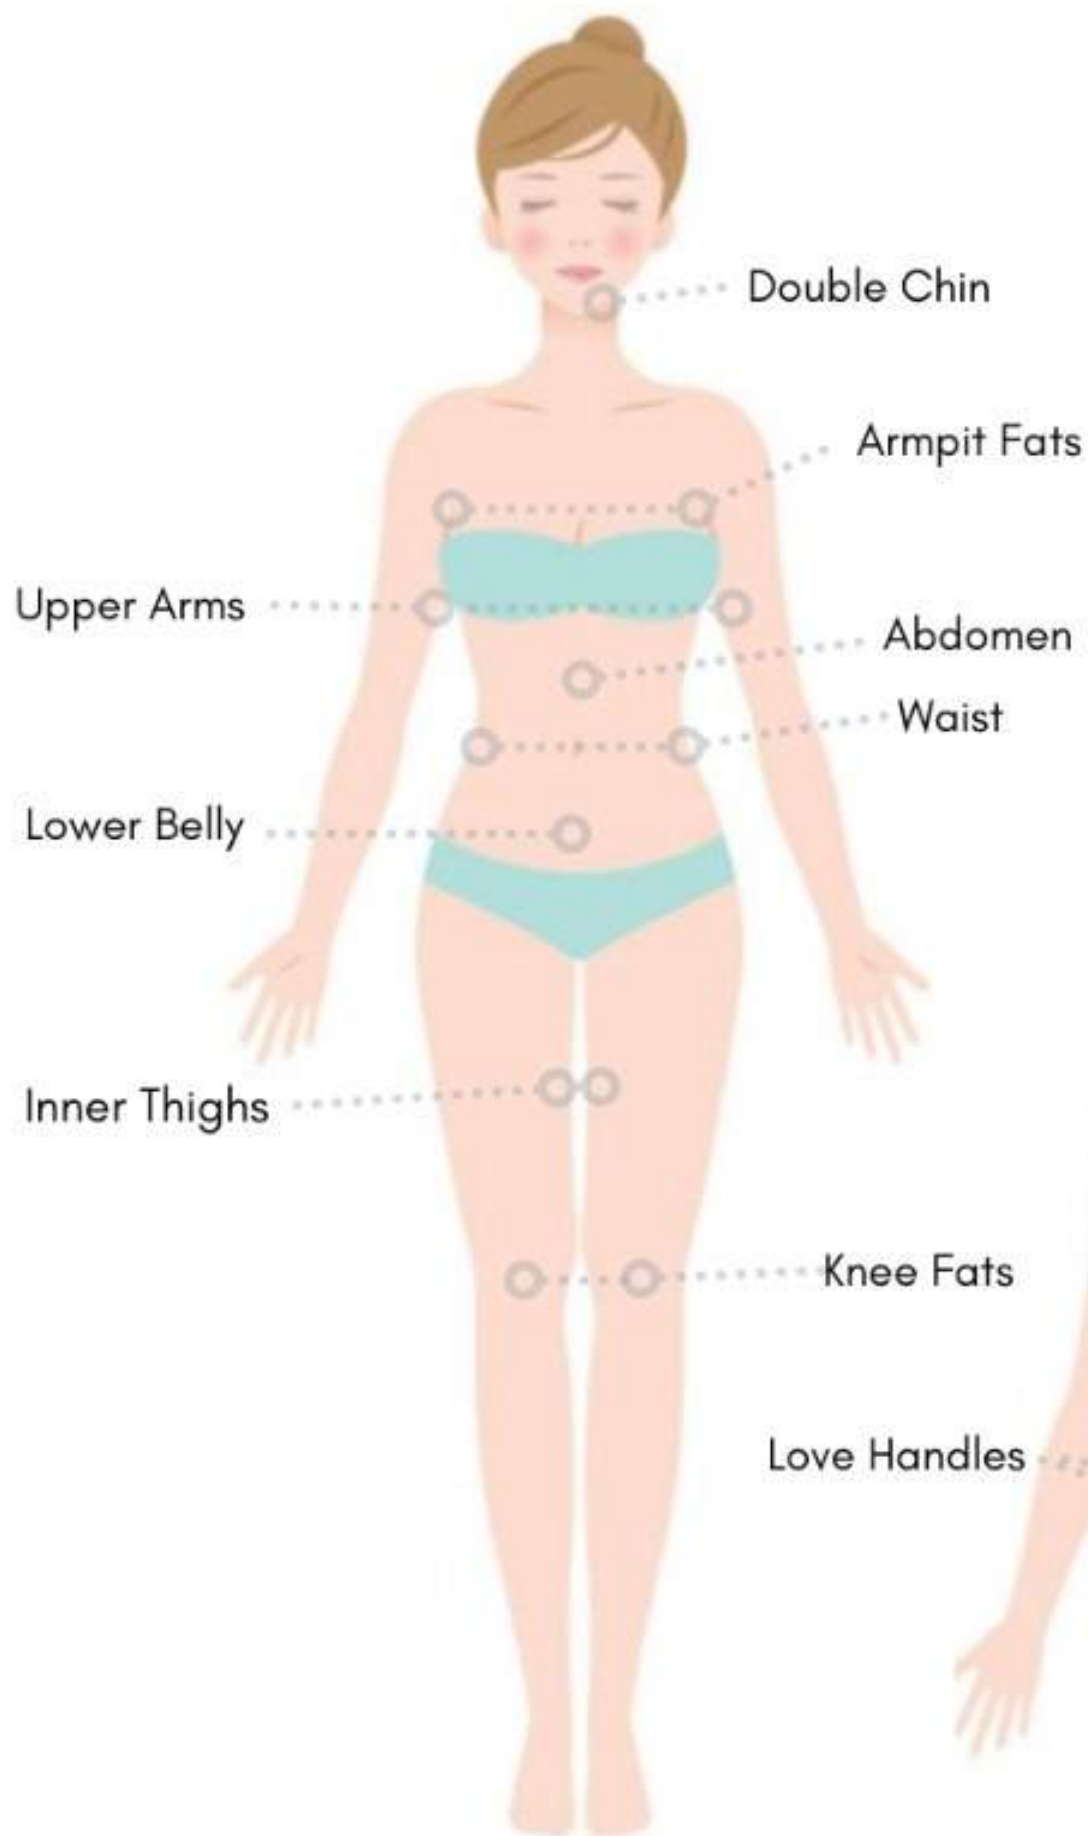

### *body management treatments*

- 1 Fatfreeze = freezes and kills fat cells, targets specific areas of bulging fats which can fit into the cup of machine
- 2 RF + Cavitation = melt fats, targets larger surface area of fats, firms loose skin and reduces cellulites + stretchmarks
- 3 EmSlim Muscle Trainer = sculpts, tones, build up muscles and firms up designated areas equivalent to exercise

## Body Management Guide

### FRONT VIEW

### BACK VIEW

## Body Contouring Instructions

### What to do before your sessions:

Drink at least two liters of water

Do not eat two hours before treatment

Remove any lotion from your skin before the treatment

Avoid having any laser hair removal, laser treatment, other body contouring treatments

Shave any body hair near and in the area to be treated

Do not drink caffeine or alcohol a day before the treatment

Wear loose fitting clothes

Avoid excessive sun exposure

### What to do after your treatment:

No hot baths or showers

Drink plenty of water

Avoid alcohol and caffeine for 24h

Use an ice pack to reduce the swelling, stiffness and bruising

Massage the treated area daily to prevent fat and toxin from becoming stagnant

Maintain a healthy diet and stay active

No saunas, spa, hot tubs

Do not miss your next appointment
